

Content Management

Content Management Systems (CMS)

You've probably seen them before - websites that wish you a Happy New Year in July!

We have a CMS solution which makes updating your website a breeze.

We offer a data-driven, dynamic CMS website which puts you in full control of your site. Ideal for businesses, clubs and associations who need to update and add content on a regular basis.

With our Content Management System you can:

- Add as many pages as you want
- Allow visitors to search your site's content
- Add, edit and delete pages online whenever you want
- Include images within your pages
- Simply format your text using a WYSIWYG editor (very similar to MS Word)

Our Content Management Systems start from only €1.000.- including domain name registration or transfer, web hosting with web-based control panel, custom design, full documentation and ongoing support.
